Pasteurization

Our customers include:

NEW PLATE HEAT EXCHANGERS

WCR manufactures twelve standard models of heat exchangers with 1" to 12" connections, as well as custom drop-in replacement heat exchangers for all major name brands – even obsolete lines. Our units can be produced and shipped in less than twelve weeks to assure minimum downtime.

- Sanitary range 1" – 6" connection
- Standard 1" – 12" connections
- Sanitary construction
- High turbulence
- Low hold up volume
- Reduction in fouling
- Approach temperatures as close as 2 degrees Fahrenheit
- Evaporating, pasteurization, and batching applications
- Multiple plate angle configurations possible
- Semi-welded cassettes

REPLACEMENT PLATES

EVERY PLATE, EVERY MODEL Direct Replacements for Any OEM

WCR heat exchanger plates are custom designed to be direct replacements for all OEM model plate heat exchangers, with high-alloy and chemically-resistant materials available. We reverse engineer each plate to exact specifications to maintain nameplate performance for any plate heat exchanger, providing the highest standard of quality. WCR's knowledge, expertise, and availability gives customers peace of mind knowing our parts will be exactly what you demand. The quality and precision of our parts is impeccable.

REPLACEMENT GASKETS

MADE IN THE USA, SHIPPED ANYWHERE The Largest Spare Parts Inventory in America

Unlike our competitors who simply resell gaskets, WCR manufactures OEM-specified heat exchanger gaskets on site. By being the source, we can provide any gasket model/material combination that you need. Each of our durable replacement gaskets is subject to meticulous quality control, assuring that every part is dependable and built to last. In fact, we work closely with the world's leading suppliers of raw rubber materials to assure the highest quality from the very start.

- FDA – NBR
- HT FDA - HNBR
- HT FDA - EPDM
- Viton™ G
- Viton™ A
- VMQ Silicone

CERTIFIED FOR SAFETY

When WCR manufactures heat exchanger replacement plates and gaskets, it's vitally important that they have the same quality and integrity as original OEM manufactured parts. It's even more imperative when these parts are essential to health and safety in the food, beverage, and pharmaceutical industries. That's why WCR has been awarded the 3-A Sanitary Standards Inc. (SSI) Replacement Parts and System Component Qualification Certificate (RSPCQC) for our direct replacement heat exchanger plates and gaskets supporting a number of OEM models.

3-A CERTIFICATION FOR MAJOR OEMS

WCR 3-A-certified replacement plates and gaskets include the VT Series, R5 Series, CLIP Series, and many more.

- **APV-Pasillac SPX Models:** H17, N35, R5, SR1, SR2, SR3, SR6GH, and SR6GL
- **GEA Varitherm TV Series:** VT10, VT20, and VT40
- **Alfa Laval M Series:** M3, M6, M6M, M10B, M10M, M15B, M15M, and MX25B
- **Alfa Laval T Series:** TS6M and TL10B
- **Alfa Laval Cipline:** Clip 3, Clip 6, Clip 8, and Clip 10

SERVICE & SUPPORT

Rapid, responsive, and always ready for the call

FACTORY SERVICES

WCR IN-HOUSE CAPABILITIES

WCR offers highly skilled repair and maintenance services on-site at our manufacturing and production facilities.

Because of all of the resources and materials within our shop, we promise a quick and stress-free repair. We also offer a one year warranty on all parts, guaranteed to maintain maximum efficiency and effectiveness.

HEAT EXCHANGER CLEANING

WCR Service created the cleansing processes that have been simulated by others.

DYE PENETRANT TESTING

Early discovery of plate defects eliminates cross-contamination concerns, saving costly downtime in the future.

FULL SERVICE REGASKETING

Our gaskets are applied only by trained technicians who have experience with all models of plate heat exchangers.
