FACTORY SERVICES WCR IN-HOUSE CAPABILITIES

WCR offers highly skilled repair and maintenance services on-site at our manufacturing and production facilities. Because of all of the resources and materials within our shop, we promise a quick and stress-free repair. We also offer a one year warranty on all parts, guaranteed to maintain maximum efficiency and effectiveness.

HEAT EXCHANGER CLEANING

WCR Service created the cleansing processes that have been simulated by others.

DYE PENETRANT TESTING

Early discovery of plate defects eliminates cross-contamination concerns, saving costly downtime in the future.

FULL SERVICE REGASKETING

Our gaskets are applied only by trained technicians who have experience with all models of plate heat exchangers.

TRUSTED ADVISORS for the Marine and Offshore Industry

When you're stuck at sea and 400 miles away from land, spare heat exchanger parts and reliability are very, very important. You can't afford to wait weeks or even months for replacement heat exchanger components – you need the right parts, right now. Turn to WCR for OEM-quality heat exchanger spare parts and all brands service.

THE LARGEST SELECTION of Replacement Plates and Gaskets in America

200,000+
PLATES IN STOCK

600,000+
GASKETS IN STOCK

MOST SHIPPED
IN **1-2 DAYS**

All the Brands. All the Models. All the Time.

WCR manufactures and stocks OEM-quality specified plates and gaskets for all makes and models of plate heat exchangers. Order from the largest inventory in North America. We promise to get your part shipped and installed quickly – usually within a day or two!

WCR also offers spare parts inventory management to free up more space and resources in your facility. For the ultimate convenience, we'll even handle the pickup and delivery of spare parts when you need them.

REPLACEMENT PLATES

EVERY PLATE, EVERY MODEL Direct Replacements for Any OEM

WCR heat exchanger plates are custom designed to be direct replacements for all OEM model plate heat exchangers. We reverse engineer each plate to exact specifications to maintain nameplate performance for any plate heat exchanger, providing the highest standard of quality. WCR's knowledge, expertise, and availability gives customers peace of mind knowing our parts will be exactly what you demand. The quality and precision of our parts is impeccable.

REPLACEMENT GASKETS

MADE IN THE USA, SHIPPED ANYWHERE

The Largest Spare Parts Inventory in America

Unlike our competitors who simply resell gaskets, WCR manufactures OEM-specified heat exchanger gaskets on site. By being the source, we can provide any gasket model/material combination that you need. Each of our durable replacement gaskets is subject to meticulous quality control, assuring that every part is dependable and built to last. In fact, we work closely with the world's leading suppliers of raw rubber materials to assure the highest quality from the very start.

- Supplying all Models in NBR, EPDM, VITON™, AFLAS®, HNBR, Hypalon, Neoprene, Silicone, and Butyl elastomers

THE CLEAR CHOICE

FOR CLEANER POWER

NEW PLATE HEAT EXCHANGERS

Standard Design Options,
