

BOOST YOUR HEAT EXCHANGER PERFORMANCE

ALL THE BRANDS • ALL THE MODELS • ALL THE TIME

CAPABILITIES
BROCHURE

THE GOLD STANDARD

for Heat Exchangers, Parts, and Service

**You rely on heat exchangers to be efficient and dependable.
Expect the same from your sales, parts, and service provider.**

WCR builds reliable, American-made heat exchangers, provides the largest inventory of replacement plates and gaskets in North America, and backs it all with unparalleled service and support.

HEAT EXCHANGERS

Our custom-built, American-made line of heat exchangers surpasses other OEMs in performance, maintenance, and economy.

REPLACEMENT PARTS

WCR offers replacement plates and gaskets for every major brand and model, ready to ship in only a day or two.

SERVICE & SUPPORT

With 9 North American service centers and 21 field service teams spread across the United States, we're always close by.

CUSTOM SOLUTIONS **for Growing Business**

WCR understands that your needs for tomorrow depend on the best plans made today. That's why we offer skilled engineering support for design and manufacturing as your company grows and diversifies. WCR can custom-create entire heat exchanger solutions to fit your needs and offer a number of supports to help your business grow smarter.

40 YEARS
EXPERIENCE

CUSTOM DROP-IN REPLACEMENT HEAT EXCHANGERS

**Designed to Your Specs,
Built to Last**

When your heat exchanger is down, your business is down. That's why it's important that you have little downtime. WCR can custom design and produce a drop-in heat exchanger built to your exact specs in a matter of weeks. With our decades of experience and familiarity with dozens of brands, our engineers and fabricators promise a rapid and hassle-free solution that fits your needs.

PLATE HEAT EXCHANGERS

With decades of experience building, installing, and servicing plate heat exchangers, nobody has more cross-brand knowledge in our industry. WCR surpasses other OEMs in performance, maintenance, and economy.

BRAZED HEAT EXCHANGERS

The size of the WCR brazed heat exchanger ranges anywhere from 50% to 80% smaller than other types of heat exchangers on the market today.

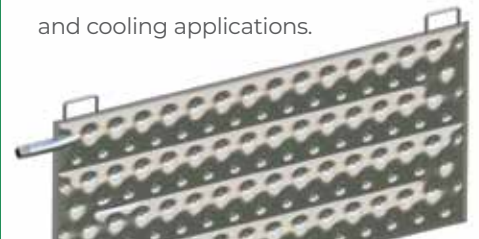

SHELL & TUBE HEAT EXCHANGERS

For heating or cooling process fluids, WCR Shell and Tube heat exchangers perform like no other.

PLATE COILS/IMMERSION PLATES

WCR Plate Coils are cost-effective replacements for pipe coils in immersion heating and cooling applications.

A SIMPLE PROCESS for Better Results

When you collaborate with us, you'll speak directly with an Application Engineer who'll guide you to the most effective solution for your needs. By stripping away the layers of middle management in development, WCR removes the possibility of misinformation while expediting the manufacturing process. In the end, we promise to deliver your new heat exchanger in dramatically shorter times than other OEMs, so you can spend more time being productive.

THE LARGEST SELECTION

of Replacement Plates and Gaskets in America

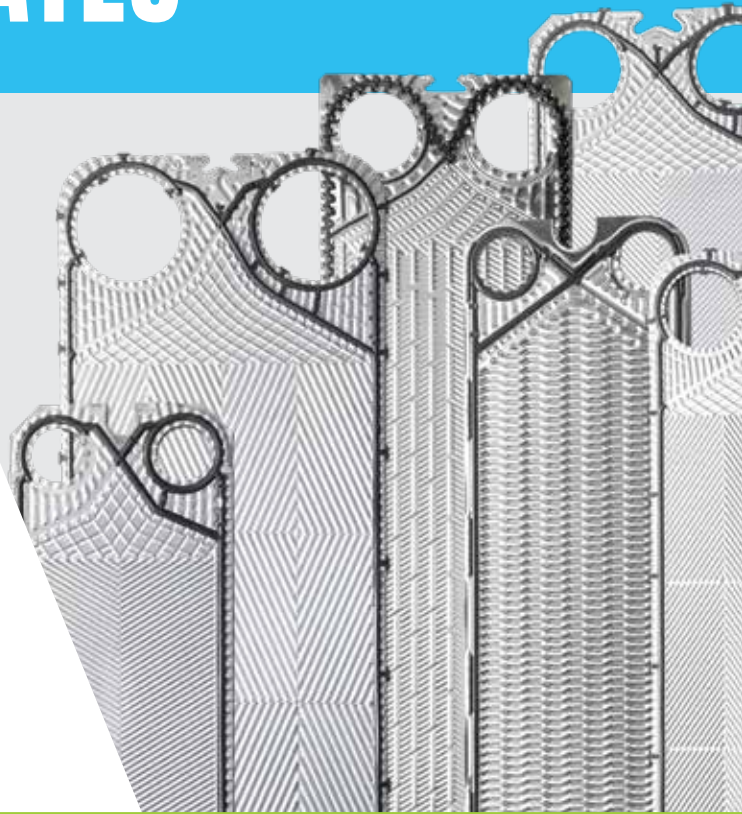

WCR manufactures and stocks OEM-quality specified plates and gaskets for all makes and models of plate heat exchangers. Order from the largest inventory in North America. We promise to get your part shipped and installed quickly – usually within a day or two!

REPLACEMENT PLATES

EVERY PLATE, EVERY MODEL

Direct Replacements for Any OEM

WCR heat exchanger plates are custom designed to be direct replacements for all OEM model plate heat exchangers. We reverse engineer each plate to exact specifications to maintain nameplate performance for any plate heat exchanger, providing the highest standard of quality. WCR's knowledge, expertise, and availability gives customers peace of mind knowing our parts will be exactly what you demand. The quality and precision of our parts is impeccable. We guarantee it.

REPLACEMENT GASKETS

MADE IN THE USA, SHIPPED ANYWHERE

The Largest Spare Parts Inventory in America

Unlike our competitors who simply resell gaskets, WCR manufactures OEM-specified heat exchanger gaskets on site. By being the source, we can provide any gasket model/material combination that you need. Each of our durable replacement gaskets is subject to meticulous quality control, assuring that every part is dependable and built to last. In fact, we work closely with the world's leading suppliers of raw rubber materials to assure the highest quality from the very start.

- Supplying all Models in NBR, EPDM, VITON™, AFLAS®, HNBR, Hypalon, Neoprene, Silicone, and Butyl elastomers
- FDA-approved versions of NBR and EPDM are standard

INTEGRITY

DURABILITY

While all gaskets have a limited lifetime, WCR manufactures ours to the highest standards to ensure durability.

FLEXIBILITY

WCR formulates our gasket elastomers to enable flexibility without sacrificing quality.

CHEMICALLY RESISTANT

Polymers and additives affect which chemicals a rubber material can withstand. WCR compounds rubber materials for optimum performance.

FOOD-SAFE

WCR strictly follows all FDA guidelines, which regulate the type and amount of rubber additives allowed to be used in our gaskets.

FACTORY SERVICES

WCR IN-HOUSE CAPABILITIES

WCR offers highly skilled repair and maintenance services on-site at our manufacturing and production facilities. Because of all of the resources and materials within our shop, we promise a quick and stress-free repair. We also offer a one year warranty on all parts, guaranteed to maintain maximum efficiency and effectiveness.

HEAT EXCHANGER CLEANING

WCR Service created the cleansing processes that have been simulated by others.

DYE PENETRANT TESTING

Early discovery of plate defects eliminates cross-contamination concerns, saving costly downtime in the future.

FULL SERVICE REGASKETING

Our gaskets are applied only by trained technicians who have experience with all models of plate heat exchangers.

FRAME HANDLING

Let trained professionals handle your expensive heat exchanger equipment by opting for WCR to disassemble the unit.

INVENTORY MANAGEMENT

WCR manages stock of your plates and gaskets, which guarantees availability for planned maintenance.

PLATE EXCHANGE PROGRAM

WCR exchanges your plates in operation with an inventoried plate pack, resulting in minimal downtime.

TOOLS

Opening and closing plate heat exchanger frames is not as simple as it looks. Use the right tools for the job from WCR.
