SUPPORT FOR THE  
BIOFUEL INDUSTRY

# THE CLEAR CHOICE FOR CLEANER POWER

## EXPERTS IN ETHANOL

### Respected Partners For Renewable Energy

When a heat exchanger is down in your ethanol plant, your productivity is down, too. You can't afford to wait weeks or even months for replacement heat exchanger components to be shipped overseas – you need the right parts, right now. Turn to WCR for OEM-quality heat exchanger spare parts specified for ethanol production.

## NEW PLATE HEAT EXCHANGERS

### Standard Design Options, Ready to Ship in Weeks

WCR manufactures twelve standard models of heat exchangers with 1" to 12" connections, as well as custom drop-in replacement heat exchangers for all major name brands – even obsolete lines. Our units can be produced and shipped in less than twelve weeks to assure minimum downtime.

- Direct replacements for any brand or custom built to match existing connection locations
- Standard: 1"-12" connections
- Custom: 1"-20" connections

## THE LARGEST SELECTION of Replacement Plates and Gaskets in America

### All the Brands. All the Models. All the Time.

WCR manufactures and stocks OEM-quality specified plates and gaskets for all makes and models of plate heat exchangers. Order from the largest inventory in North America. We promise to get your part shipped and installed quickly – usually within a day or two!

WCR also offers spare parts inventory management to free up more space and resources in your facility. For the ultimate convenience, we'll even handle the pickup and delivery of spare parts when you need them.

## REPLACEMENT PLATES

### EVERY PLATE, EVERY MODEL

#### Direct Replacements for Any OEM

WCR heat exchanger plates are custom designed to be direct replacements for all OEM model plate heat exchangers. We reverse engineer each plate to exact specifications to maintain nameplate performance for any plate heat exchanger, providing the highest standard of quality. WCR's knowledge, expertise, and availability gives customers peace of mind knowing our parts will be exactly what you demand. The quality and precision of our parts is impeccable.

We have in-stock components and support for the following key heat exchanger models for the ethanol industry:

- **GFP 057-187**
- **WideGap 200 & 350**
- **MA30**

**200,000+**  
PLATES IN STOCK

**600,000+**  
GASKETS IN STOCK

**MOST SHIPPED**  
IN **1-2 DAYS**

## One Solution for Any Challenge

Regardless of the your needs, WCR will keep your operation running as cleanly as your products.

- Mash Cooling
- Beer Mash
- Fermentation Cooling
- Steep Tank Heating
- Cook Water Heating
- Yeast Cooling
- Syrup Condensing
- Proof Cooling
- Regen Vapor Condensing
- Waste Heat Recovery

# REPLACEMENT GASKETS

**MADE IN THE USA,  
SHIPPED ANYWHERE**

**The Largest Spare Parts Inventory in America**

Unlike our competitors who simply resell gaskets, WCR manufactures OEM-specified heat exchanger gaskets on site. By being the source, we can provide any gasket model/material combination that you need. Each of our durable replacement gaskets is subject to meticulous quality control, assuring that every part is dependable and built to last. In fact, we work closely with the world's leading suppliers of raw rubber materials to assure the highest quality from the very start.

- Supplying all Models in NBR, EPDM, VITON™, AFLAS®, HNBR, Hypalon, Neoprene, Silicone, and Butyl elastomers
- FDA-approved versions of NBR and EPDM are standard

# SERVICE & SUPPORT

**Rapid, responsive, and always ready for the call**

## FIELD SERVICE ON-SITE ASSISTANCE

Our trained service professionals know ethanol heat exchangers inside and out. WCR has 21 on-site service crews across the United States, strategically setup in 8 locations to reach any destination within 8 hours. Our expert teams have years of cross-brand knowledge and experience handling all models of plate heat exchangers. You can trust they have the know-how to tackle any problem.

## FACTORY SERVICES WCR IN-HOUSE CAPABILITIES

WCR offers highly skilled repair and maintenance services on-site at our manufacturing and production facilities. Because of all of the resources and materials within our shop, we promise a quick and stress-free repair. We also offer a one year warranty on all parts, guaranteed to maintain maximum efficiency and effectiveness.

### HEAT EXCHANGER CLEANING

WCR Service created the cleansing processes that have been simulated by others.

### DYE PENETRANT TESTING

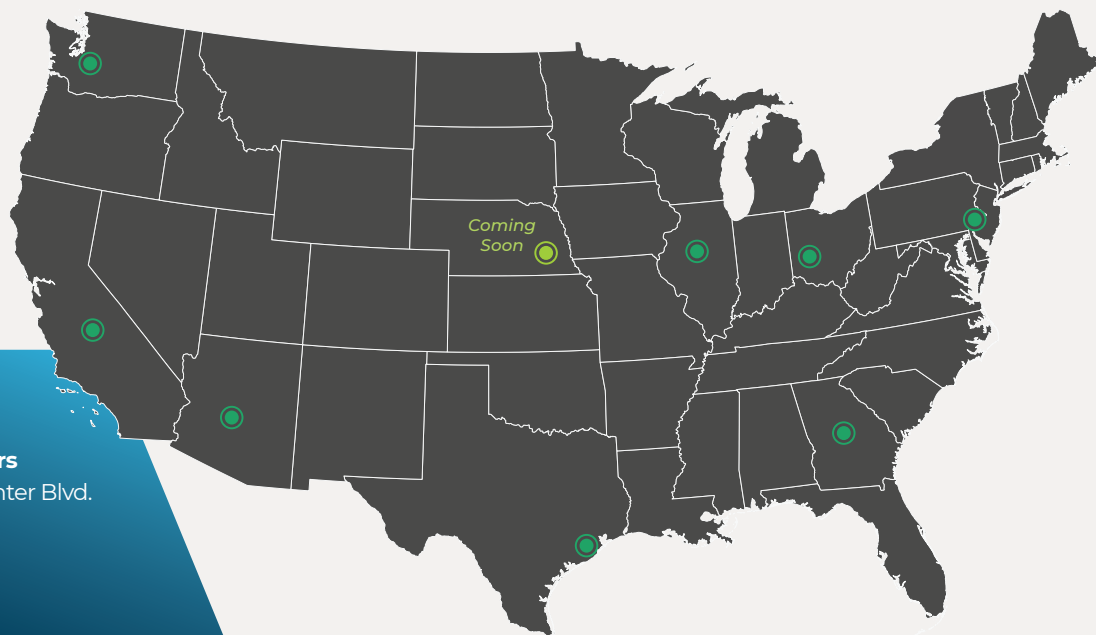

Early discovery of plate defects eliminates cross-contamination concerns, saving costly downtime in the future.

### FULL SERVICE REGASKETING

Our gaskets are applied only by trained technicians who have experience with all models of plate heat exchangers.
